SimpleLTC, Richardson, TX – Individual Contributor (Full-Stack)

August 1st, 2012 – January 5th, 2024 – Salaried Employee

SimpleLTC provides software as a service to long-term care facilities nationwide. I was primarily responsible for the Texas-specific Medicaid product, including platform-wide access and security.

- Resolved technical issues and collaborated with senior developers to meet project goals.
- Collaborated daily with the support team to ensure uninterrupted user experience.
- Planned and organized team efforts on a daily, weekly, and quarterly basis.
- Performed code reviews and developed detailed project plans using Jira and Confluence.

Dallas Baptist University, Dallas, TX – Individual Contributor

July 1st, 2007 – July 1st, 2012 – Salaried Employee

Dallas Baptist University maintains a primary .edu website and several auxiliary microsites for marketing and athletics.

- Transitioned the website from a static implementation to a dynamic CMS.
- Regularly updated the athletics website to reflect current activities and events.
- Enhanced the ID system and developed training materials for staff and faculty.
